DETAILED ACTION

1. This action is responsive to communications: original application filed 03/02/2004.
2. Claims 1-18 are currently pending in this application. Claims 11 and 11 are independent claims.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10 are directed toward multiple computer communication using cryptography, classified in class 713, subclass 150.
 - II. Claims 11-18 are directed toward access control or authentication regarding security protocols, classified in class 726, subclass 14.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I through II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as media access control systems and security systems adapted to selectively encrypt outgoing data and selectively decrypting incoming data, and (II) has

Art Unit: 2134

a separate utility such as integrating parallel processors on a single integrated chip, which utilizes IPsec processing.

5. Because these inventions are distinct from the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above, the search required for Group I is not required for Group II, and the search for Group II is not required for Group 1.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
